## **DETAILED ACTION**

### ***Response to Arguments***

1. The Examiner has carefully considered Applicant's remarks dated 05/30/07. There were no amendments to the claims.
2. With regard to the double patenting rejections over applications 10/297173, 11/000007 and 11/014779, they are being held in abeyance as requested and can be found in the action dated 01/03/06 in paragraph 4-5. Applicant's traversal with regard to the first 102 rejection is found to be valid and the rejection is withdrawn.
3. With regard to Applicants traversal over the 35 USC 102 (b) rejection made over USPN 6170115 issued to Tanaka et al. Applicant argues that the structure is not the same and that the taught adhesive layer and porous screen are on the same side of the tape body. This deduction is incorrect as Applicant has failed to distinguish the claimed laminate, from that of which is taught in the five layered embodiment of Tanaka. Applicant argues that Tanaka's does not anticipate the claimed laminate in their five layered embodiment, because of the transitional phrase consisting of, however this argument is not commensurate in scope with the claims because the claim states "comprises", which allows for the additional two layers.

Therefore, Applicant's arguments are not found to be persuasive and the rejection is maintained and made final.

### ***Claim Rejections - 35 USC § 102***

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
5. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by USPN 6170115 issued to Tanaka et al. as set forth in the previous office action in paragraph 5.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
